

OUR SEVEN SOURCES OF ENERGY.

ENERGY TO CHANGE THE WORLD.

FG.de

FROGROUP

1. WE BELIEVE THAT A BETTER WORLD DESERVES BETTER ENERGY.

Solar, geothermal, wind power ... the world is rich in renewable energy resources. In an effort to create a better world, we are finding smart ways of making the most of these ample energy resources.

2. WE UNITE THE BEST POWERS IN THE WORLD – RENEWABLE ENERGY SOURCES AND EXPERT EMPLOYEES.

Together, the inexhaustible resources of nature and the many facets of human capability and passion can lead to great things. This is precisely the reason why we have brought together specialists from all fields of renewable energy, from engineers and software developers to financial experts.

3. WE HAVE A UNIQUE SOURCE OF INSPIRATION THAT DRIVES US – OUR PASSION.

Working at FG.de is all about sharing a passion for renewable energy and demonstrating smart, technical solutions each day. Our motivation is the best means of spreading the advantages of green energy to the entire world and making its benefits available to everyone.

4. WE MOVE FAST BECAUSE WHY WAIT WHEN THE WORLD DOESN'T HAVE TIME TO WAIT.

Ideas need to display their validity today in order to change tomorrow's world for the better. We optimise all of our processes to provide technical solutions that are simple, efficient and fast to implement.

5. OUR SOLUTIONS ARE WORLD CLASS, BECAUSE ONLY THE BEST WILL IMPROVE THE WORLD.

We want to ensure that sustainable energy becomes the first choice worldwide. To achieve this, we are setting our sights on one clear benchmark – offering the world the very best. All of our products and solutions – smart grids, smart metering, e-mobility and other future-oriented inventions – must therefore live up to this standard. After all, a good idea requires top quality in order to be instrumental in making the world a better place.

A man in a dark suit and tie is sitting in a modern, curved wooden chair. He is smiling and looking towards the camera. The background is a bright, modern office interior with large windows and a blurred green plant in the foreground.

6. NOT ONLY DO WE CONSIDER NEW OPPOR- TUNITIES, WE EMBRACE THEM.

We believe that innovation means exploring new paths. To encourage as many people as possible to follow us down these paths, we integrate our new solutions into everything we do with a view to making them available to everyone. In doing so, we are building confidence in the future of renewable energies.

**7. WE ARE NOT
WAITING FOR OTHERS
TO MAKE THE WORLD
A BETTER PLACE.
WE ARE CREATING IT.**

We are experts in green energy and passionate about developing world-class solutions. We discover ideas for tomorrow's world and are turning them into a reality today. Simply said, we have the energy to change the world. And that is exactly what we are doing – today and tomorrow.
